

NOSMA

Cabbage Cleaner

Gentle cleaning with the newest air pressure technology!

NOSMA® CC-2620

The NOSMA CC-2620 cabbage-cleaning machine was developed by NOSMA Cabbage Cleaning Technologie. Innovative and patented spray- and transport-technology guarantees a gentle cleaning of your cabbage.

Efficient

Up to 10 times faster than manual cleaning.
Highest quality – just like hand washed cabbage!

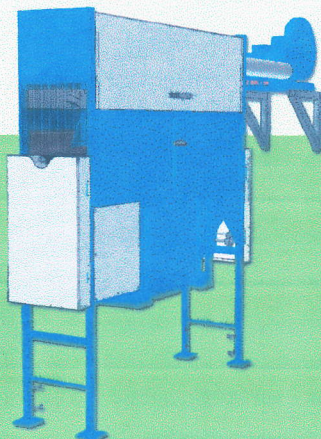

Cost-saving

Your answer to constantly increasing personnel costs.
Operation by only one person is possible!

Simple & fast

Fully automatic up to 10 tons per hour

and no extra cleaning work needed

The machine can be individually adapted to the specific needs of your business.
We have the solution!
